See below. I also heard from Wells Fargo and 1Cal. Can we have someone check the encampments and clear them at night. It is private property and posted as such so we should be able to clear them, correct?

Subject: 4th and Hill Safety concerns

Good Afternoon Brain,

I am reaching out on behalf of several tenants that have expressed safety concerns on 4th street specifically between Olive and Hill, and the 4th & Hill street corner (train station entrance). They are reporting an increased number of aggressive transients in those areas. I am asking if at all possible to increase the BID patrols during the morning hours and afternoon, mainly when tenants are going to and from the train station. We currently post a Patrol officer at the bottom of the escalator from 0730 – 0915 and again from 1700 – 1800 to keep that area clear. I believe the problem stems from the encampment that is increasing in size at night in the Angel Knolls park. The park gates have been reopened and have been so for about 1 ½ months. I've copied Rita and Louis because a significant amount of their tenants travel through 2CAL and down 4th street to get to the train station and may be affected as well. Please let me know if your available to assist. Thank you.

Cordially,

Anthony Rodriguez
